APR 26 1994

UNIVERSITY OF CALIFORNIA

February 9, 1994

To: DONA SPRING, Councilmember

From: ~~WELDON~~ RUCKER, Acting City Manager

Subject: SURVEY OF HOMELESS INDIVIDUALS REGARDING "PROBLEMATIC STREET BEHAVIORS"

As requested, Homeless Outreach staff surveyed homeless individuals, between January 4th and February 4th, regarding "problematic street behaviors" and proposed ordinances and related approaches to be considered at the upcoming February 15th Council Hearing. While several dozen individuals were approached for their input on this matter, there were 25 actual survey respondents. These surveys were taken in five key commercial areas: 1) Downtown; 2) North Shattuck; 3) San Pablo Avenue; 4) Telegraph Avenue; and 5) University Avenue.

The survey itself, as well as a background informational sheet, are attached for your information. In addition, copies of the completed surveys are also attached in order to provide a sense of the survey responses.

Among the survey highlights are:

- 84% (of survey respondents) were aware, at least generally, with some (or all) of the proposed ordinances;
- 72% believe there are problems with certain street behaviors (aggressive panhandling/behaviors, robbery);
- 80% report being affected by, or victims of, such street behaviors (aggressively panhandled, fighting, competition over panhandling spots, robbery, intimidation, homeless are victims by being blamed for criminal activity);
- 80% of respondents support some aspects of the proposed ordinances (including restrictions around aggressive panhandling, ATMs and nighttime restrictions).

Telecommunications Device for the Deaf (510) 644-6915

Memorandum to Councilmember Spring
February 9, 1994
page 2

Additional survey responses include:

- 64% of respondents report that street safety is a prominent issue that needs to be addressed (including the safety of women after dark, intimidation, robbery, drugs and physical aggression);
- 28% of those surveyed panhandled;
- 40% of respondents believe that it is not a problem to panhandle while sitting (or otherwise passively);
- 24% believe that if ordinances are adopted, then alternative solutions (including jobs, other income) need to be available;
- 24% report that the proposed ordinances do not address the root of the problem;
- 68% report that aggressive panhandlers should be regulated/stopped

Subject: panhandling

would it be possible for the homeless outreach workers to survey panhandlers to get their views on the proposals for limiting panhandling. a check list could be made up such as:

Due to citizen complaints, the city council is considering regulating some places in regards to panhandling and some councilmembers are interested in your input as to what you think is reasonable:

Could you support?

a ten foot limit from an outdoor bank teller machine? ____
not soliciting at a theatre line ____ at a bus stop ____ at a
parking meter ____
etc.

Also could outreach workers give out little notices regarding the Jan. 18th public hearing?
